Some assets could be classified into more than one category or require discretion about which category applies. You may use your own internal methodologies and the conventions of your service providers in determining how to categorize assets, so long as the methodologies or conventions are consistently applied and consistent with information you report internally and to current and prospective clients. However, you should not double count assets, and your responses must be consistent with any instructions or other guidance relating to this Section.

# Item 12 Small Businesses

The SEC is required by the Regulatory Flexibility Act to consider the effect of its regulations on small entities. In order to do this, we need to determine whether you meet the definition of "small business" or "small organization" under rule 0-7.

Answer this Item 12 only if you are registered or registering with the SEC **and** you indicated in response to Item 5.F.(2)(c) that you have regulatory assets under management of less than \$25 million. You are not required to answer this Item 12 if you are filing for initial registration as a state adviser, amending a current state registration, or switching from SEC to state registration.

For purposes of this Item 12 only:

- Total Assets refers to the total assets of a firm, rather than the assets managed on behalf of *clients*. In determining your or another *person's* total assets, you may use the total assets shown on a current balance sheet (but use total assets reported on a consolidated balance sheet with subsidiaries included, if that amount is larger).
- Control means the power to direct or cause the direction of the management or policies of a person, whether through ownership of securities, by contract, or otherwise. Any person that directly or indirectly has the right to vote 25 percent or more of the voting securities, or is entitled to 25 percent or more of the profits, of another person is presumed to control the other person.

#### Schedule D - Miscellaneous

You may use the space below to explain a response to an Item or to provide any other information.

\*\*\* NOTE 1 of 4 \*\*\* Regulatory Assets Under Management figures quoted in this filing are as of June 28, 2019. \*\*\* NOTE 2 of 4 \*\*\* On Schedule D section 5.K.(1)(b), the form only permits the percentages of each Asset Type to be expressed to the nearest percentage point. Three different categories of Asset Types comprised less than 0.5% of EWM's regulatory assets under management. For each of these categories, EWM rounded the percentages up to 1% to ensure readers would know that EWM's investment advisory program included some level of these Asset Types. These Asset Type categories and their actual percentage of EWM's regulatory assets under management are as follows: (iii) US Government/Agency Bonds – 0.091%; (vi) Investment Grade Corporate Bonds – 0.439%; and (viii) Derivatives – 0.010%. For all other Asset Type categories, EWM rounded to the nearest whole percentage point using traditional rounding methodology (i.e., 0.50% to 0.99% figures round up to the next higher percentage point; 0.01% to 0.49% round down). This explains why the sum of the percentages of EWM's Asset Types equals 103%. \*\*\* NOTE 3 of 4 \*\*\* Some separately managed account clients Edwards Wealth Management advises engage in borrowing and/or derivative transactions as indicated under items 5.K.(2) and 5.K.(3). None of these clients has \$10 million or more in regulatory assets under management. Thus, as permitted by instructions to Schedule D section 5.K.(2)(b), EWM did not populate columns 1 and 2 of this section. \*\*\* NOTE 4 of 4 \*\*\* Finally, in Item 9 – Custody, EWM is deemed to have custody by virtue of its ability to journal, as requested by clients, assets between like titled advisory accounts and brokerage accounts held with its affiliated broker-dealer.
